

Web Press Corporation  
Press Release

December 2, 2005

### **Customers Installing Additional Quad-Stacks to increase Color Capabilities**

Expedi Printing, Brooklyn NY is doubling its 4 color printing capabilities by installing three new Quad-Stack printing units to its existing equipment, bring the total number of WPC color units to six. The installation, taking place the first week of December, 2005, includes a variety of angle bar configurations to allow maximum color placement and section variety. Expedi Printing prints over 100 publications, including the New York Sun.

Installation of a 2 Quad-Stack, 1 folder purchase by VN Printing in Houston, Texas is also being completed this month.. VN needed to arrange for a new building to house the purchase, which was being combined with existing equipment to formed two side by side twinned press lines.

Oldham Associates, has purchased their ninth Quad-Stack from Web Press Corporation. Oldham, which is WPC's largest customer, runs five separate lines of WPC equipment out of their Springville, Utah plant.

Other pending December installations include: DMG World Media, Knightstown, Indiana (1 Quad-Stack); and the Midland Tribune, Offaly, Ireland (1 Quad-Stack).

### **In other Web Press Corporation news,..**

Rollie Mercer, VP of Manufacturing has retired after 33 years working for Web Press Corporation. Rollie started in the assembly area in 1972, working his way up and eventually becoming a major stock holder in Web Press Corporation. Rollie will remain an owner, but will no longer have day to day duties in the plant. Rollie's responsibilities will be taken over by Dave Skaggs, who is being promoted from Assembly Supervisor to Plant Manager.

Also soon to retire is Alan White, VP of Purchasing. Alan, also a long time employee and major stock holder, is being replaced by Ed Olson, Purchasing Manager. Ed, new to WPC ranks, comes with an extensive purchasing background.
