Quad-Stack Sales Stacking Up In UK

Favorable exchange rates have enabled three UK companies to order 5 Quad-stacks and other related equipment from Web Press Corporation since the beginning of the year.

The most recent order comes from the Munster Express in Waterford, Ireland, who signed a contract in May for 2 Quad-Stacks to add to their existing Linonews press line. Executives from Waterford have been working with Barry Allan, WPC's UK sales agent, and met with other WPC executives at Nexpo in Dallas. The Waterford sale is an excellent example of the versatility of the Quad-Stack unit and its ability to merge into existing single-width, one around press lines.

The Orcadian, located in the Orkney Islands of Scotland, are also adding a Quad-Stack (roll under model) to a Linonews line.

Kerry's Eye (Kenno, Ltd.), Tralee, Ireland, has purchased two additional Quad-Stacks, bringing their total to 5. The units will be arranged with other units in two separate lines. Kenno, Ltd. has also recently ordered an upgrade to remote inking systems for all the Quad-Stack units in their plant.
