

High Quality...Happy Readers!

Wyatt Emmerich
President, Emmerich Newspapers

"The Web Press Quad-Stacks™ are allowing me to take my printing plants from ho-hum black newsprint to commercial level color work. We just installed computerized inking and the quality is tremendous and the waste negligible. Next step is UV inks and we are really excited about that.

"This translates into higher ad revenue, happy print customers and growth. While other newspapers flounder and stagnate with old equipment, Web Press has allowed my company to modernize and grow. When newspapers were the only game in town, print quality was secondary. But in this day and age, to compete, your product must be beautiful. The Quad Stack is the centerpiece in our clear pathway to a bright future of high quality and happy readers."

The Quad-Stack™ units pictured are installed at The Greenwood Commonwealth in Mississippi, an Emmerich Newspapers location.

QUAD-STACK™

Low waste
UV compatible
High resolution
Four year warranty
